

Diaper Drive

Diaper Need:

- 44% of Wisconsin young children live in low-income families.
- Diapers cannot be bought with food stamps nor are they covered by WIC.
- Without adequate diapers, parents may leave babies in dirty diapers longer or reuse diapers leading to severe diaper rash and other health problems.

Diaper Bank:

- A Diaper Bank operates like a food bank
 - It collects donated diapers and distributes them to families in need.
- Pregnancy Helpline's Diaper Bank provides free diapers to clients at the Sharing Center inside the Catholic Multicultural Center.
- In 2013, the Diaper Bank collected close to 19,000 donated baby diapers.
- The Diaper Bank currently distributes about 1,000 diapers each week!
